

Studentis Group is seeking to recruit a

Chief Operating Officer (COO)

Launched in 2006, Studentis Group is a leading network of online communities with ambitions to be an industry leader in Europe. Through acquisitions Studentis aim to be the natural link between young Europeans and companies seeking contact with this target group. Studentis Group is a privately owned company with strong shareholders with experience from the: online community, retail, internet, international recruitment and branding industries. Studentis Group is an Equal Opportunity Employer.

Job Description

Studentis Group is seeking a Chief Operating Officer, COO to be responsible for a mixture of functions including: operations, analysis, project management, strategy and administration, to support the success of its Community division. This is an exciting opportunity to undertake a broad range of activities while gaining exposure to the business in a highly visible role.

Reporting directly to the Chief Executive Officer, the COO will be the primary point of contact for many projects overseen by the COO, interacting on a daily basis with Studentis Group business leaders and managing: the co-ordination between existing communities, integrating newly acquired communities, developing and enhancing the technical IT platform, increase web traffic, developing membership loyalty programs, implementing brand strategy and much more.

Responsibilities

- Support the CEO in managing the strategic growth of the business on an operational level and ensuring the goals are met by the teams
- As COO manage the strategic plan of each business area
- Take overall responsibility for the delivery of the new IT Platform
- Implement revenue streams and profitability into each community
- Organize and manage timelines and details of special projects and deliverables
- Perform complex analysis and work on research assignments
- Participate in team meetings and secure that growth follows the strategic plan
- Gather data, analyze results, identify trends and prepare ad hoc reports for the CEO
- Support the CEO in preparing and taking part in presentations to potential investors
- Develop processes and procedures to ensure office operations are timely and cost efficient

Qualifications

- Excellent organizational, people and teamwork skills
- Excellent project management and problem solving skills
- Proven ability to initiate projects
- Able to leverage deep analytical skills, deliver insight and help the CEO and leaders throughout the business make critical strategic and operational decisions
- Capable and detail-oriented multi-tasker who can prioritize in demanding situations
- A passionate commitment to building an exciting business from the ground-up
- Fluency in all Microsoft applications (Office), web browsers and database packages
- Ability to understand, formulate, and even criticize forecasting models
- Fluency in written and spoken business English and Swedish. Additional languages a plus
- BS/MS degree or equivalent required
