

Studentis Group is seeking to recruit a

Web Developer PHP / Drupal

Launched in 2006, Studentis Group is a leading network of online communities with ambitions to be an industry leader in Europe. Through acquisitions Studentis aim to be the natural link between young Europeans and companies seeking contact with this target group. Studentis Group is a privately owned company with strong shareholders with experience from the: online community, retail, internet, international recruitment and branding industries. Studentis Group is an Equal Opportunity Employer.

Job Description

Studentis Group is seeking a Web Developer PHP/Drupal to be part of our development team that is creating functions, services and modules for our communities in Drupal. The job involves a mixture of functions to support the success of our Community division. This is an exciting opportunity to undertake a broad range of activities. As part of the Tech Team, you will: manage co-ordination between existing communities, integrate newly acquired communities, developing and enhancing the technical IT platform, increase web traffic, develop membership loyalty programs, and much more. You will be based in Stockholm or Borås.

Responsibilities Include:

- Specify and develop features for our communities
- Build Drupal functions, modules and features
- Optimize and Scale PHP/MySQL applications beyond where you've probably scaled before
- Create APIs to help with inside and outside developers and programmers
- Lead development projects using internal and outsourced developers

Required Knowledge:

- Drupal
- Programming languages (i.e., HTML, CSS, JavaScript, XML, PHP)
- Relational Databases (i.e., MySQL and administration)
- Operating systems and server setups (i.e., Linux, Win 2K, XP)
- Multimedia (i.e., Photoshop, Flash - Action Scripting, Dreamweaver, Adobe Acrobat)
- Experience with Content Management systems and user interface design
- Effective customer service skills and prior experience supporting internal customers.

Qualifications:

- Excellent organizational, people, teamwork and problem solving skills
- Proven ability to lead projects and take initiative
- Able to leverage deep analytical skills, deliver insight and deliver results
- Strong results-oriented and quality performance work ethic
- Fluency in written and spoken English. Additional languages a plus
- BS/MS degree or equivalent required

Our ideal candidate is diligent and outgoing and excited about getting involved with a rapidly growing internet company. Please include links to any interesting application/material you've developed that might get our attention. Studentis offer great opportunities for the right individuals.

Interested candidates are welcome to contact:

CEO, Andreas Swahn at andreas.swahn@studentis.com, mob: +46-704-22 22 01 or
Country Manager Nordic, Mikkel Gerdes at mikkel.gerdes@studentis.com, mob: +46-739-16 65 13.
Applications shall be sent to jobs@studentis.com. Please indicate which position you apply for.
