

Studentis Group is seeking to recruit a

Web Master & Web Designer

Launched in 2006, Studentis Group is a leading network of online communities with ambitions to be an industry leader in Europe. Through acquisitions Studentis aim to be the natural link between young Europeans and companies seeking contact with this target group. Studentis Group is a privately owned company with strong shareholders with experience from the: online community, retail, internet, international recruitment and branding industries. Studentis Group is an Equal Opportunity Employer.

Job Description

Studentis Group is seeking a Web Master & Web Designer to be part of our development team that is creating functions, services and modules for our communities in Drupal. You will act as the head of our online web presence along with Editor-in-Chief to work with both our editorial, member, marketing and application development teams. Produce & create all content templates for our communities, offline collateral, email campaigns and support corporate identity material.

We are looking for the best and brightest talent in web 2.0 related development to support the success of our Community division.

As part of the Graphics and Tech Team, you will: manage co-ordination between existing communities and integrate newly acquired communities, developing and enhancing the graphical interfaces, and more. You will be based in Stockholm or Borås.

Responsibilities Include:

- Define and document design and visual identity standards for our online presence
- Translate Photoshop designs into fully compliant XHTML elements
- Be responsible for integrating design elements and underlying LAMP code logic in Drupal and ensuring a fully functional, visually standard customer experience
- Act as an advisor to development team lead(s) to provide strict compliance to design standards
- Install and manage Drupal and various CMS products for our website properties
- Work with marketing team for SEO, SEM, Affiliate Linking and other initiatives

Qualifications:

- Must have recent online work in system design, software architecture, web technologies
- Expertise in PhotoShop, Illustrator, Dreamweaver, Flash & Acrobat.
- Experience with a Web 2.0-style project and Content Management systems, preferably Drupal
- Proven knowledge of HTML, XHTML, CSS, AJAX, Javascript
- Experience with user interface design
- Knowledge of advertising networks and ad servers (phpadsnew) and SEO/SEM
- Experience in managing projects and deadlines to ensure product release and delivery
- Knowledge of open source technologies and current online trends
- Fluency in written and spoken Swedish and English. Additional languages a plus
- Diploma in multimedia and 3-5 years of experience in the creation of internet solutions

Our ideal candidate is diligent and outgoing and excited about getting involved with a rapidly growing internet company. Please include links to any interesting application/material you've developed that might get our attention. Studentis offer great opportunities for the right individuals.

Interested candidates are welcome to contact:

CEO, Andreas Swahn at andreas.swahn@studentis.com, mob: +46-704-22 22 01 or
Country Manager Nordic, Mikkel Gerdes at mikkel.gerdes@studentis.com, mob: +46-739-16 65 13.
Applications shall be sent to jobs@studentis.com. Please indicate which position you apply for.
